Abstract (en)
[origin: WO9929815A1] The invention relates to an especially compatible hand dishwashing detergent which can be perfumed in any way, cleans excellently, is skin compatible, temperature-stable, stable in storage, and ecological. The detergent has a specific antibacterial activity during concentrated application on wet work surfaces, kitchen appliances while using wet cleaning towels, sponges and brushes. The detergent is provided by adding one or more carboxylic acids and/or the salts thereof having antibacterial action to a tensidic mixture comprised of anionic tensides and/or nonanionic tensides and/or betaine tensides.
