Abstract (en)
[origin: WO0003848A1] A three-in-one router accessory tool is provided. A router stabilizer base (13), fixed fence (16) and floating fence (19) can be used in various combinations to enhance the capabilities of the router. The router attachment aids the operator in finishing or smoothing wood pieces and can also be used as a biscuit slot cutter, obviating the need to purchase specialized wood working tools.
