Abstract (en)

The invention relates to a method for making a motorcyclist helmet (1) comprising: a first covering step for covering the bottom edge of the helmet cap (2) by an outer coating layer (4), the covering being performed by stitching the outer coating layer (4) directly on the cap, and a second applying step for applying to the inner surface of the cap (2) an inner protecting element (3), said applying step being finished by glueing. The invention further relates to a motorcyclist helmet (1) in which the bottom edge of the cap (2) is provided with an outer coating layer (4), directly applied to the cap (2) by stitching and in which an inner protecting element (4) is coupled, by glueing, to the inner surface of the helmet cap (2). <IMAGE>
