Abstract (en)
The sanitary fitting has a mixture valve provided with its operating component, at least one flushing component (5) and a rosette (1) covering the complete fitting. The rosette has through passages for the components required for using the fitting. The flushing component is fixed or held in or on the rosette, is connected via a conduit with the fitting housing or is fitted on the housing. A changeover valve is operable through the rosette. The mixture valve is a thermostat valve or is of the single lever type. A fitting housing is incorporated, in which all the components are arranged.

Abstract (de)
Eine Sanitärarmatur enthält zusätzlich zu den Bedienelementen ein Brauseelement, das beispielsweise als Seitenbrause ausgebildet ist. Alle diese Komponenten der Sanitärarmatur werden durch eine gemeinsame Rosette abgedeckt, die auf diese Weise die gesamte Armatur zusammenfaßt.
