Abstract (en)
[origin: EP1039228A2] The ceramic tile (10) has a decorative element (24) which can be fitted to and removed from it. For this purpose, gripping magnets (22) in recesses (20) in the tile body (12) may be used in combination with a plate-form counter-magnet (26) on the decorative element. The counter-magnet itself may form the decorative element, or may be attached to one made of ceramic, natural stone, wood or glass.
