Abstract (en)
[origin: EP1041355A2] Fitted behind a weapons tube (1) with a braking device (7), a carriage (4) supports a seating device for a shell (8), moves guide tracking (5) running parallel to the weapons tube axis (R) and is coupled to a pneumatic piston cylinder driving mechanism run by pneumatic controls (19) with a rapid-opening control valve (10) to link an operating connector (6.1) for the piston cylin driving mechanism to a compressed air source or outlet at option.
