Abstract (en)

[origin: EP1041692A1] The connector (31) has means (56b) for routing the cable cores at an angle between 20 to 70 degrees to the run of the busbar(s) (1). The angle is preferably 40 degrees but can be between 30 to 50 degrees. The cable core routing means includes a screw terminal (57) for gripping the cable core (41) end. The terminal (57) being set at the appropriate angle by the fitting (56b). The whole is covered by a insulated housing (59) containing a fuse (60)
