Abstract (en)  
[origin: DE19743752A1] The refrigerator (11) has a top opening and internally there is a conveyor unit (15) that is motor driven (17). This supports various products (20) that are identified by an optical scanner (21). A touch display screen (22) displays symbols of the various products and these can be selected. The conveyor responds to move the selected item to the top.
