Abstract (en)

[origin: EP1043268A1] The vehicle has a driver's operating unit (1), wheels and a lifting mast (3) behind the front wheel axle (9a), a lifting uni for raising a bearer vertically along the mast and a positioning device (6) attached to the bearer. The lifting mast is laterally of to the longitudinal vehicle axis and in front of the operating unit. The positioning device is longer than its vertical height a is inclined wrt. the vertical mast axis, preferably at more than 30 degrees.
