Abstract (en)
[origin: WO9932089A1] The present invention relates to a pharmaceutical composition comprising micelles in an aqueous medium, wherein the micelles comprise a lipophilic glucocorticosteroid and one and only one pharmaceutically acceptable surfactant. The invention further relates to a process for the preparation of the pharmaceutical composition and use of the pharmaceutical composition for the manufacture of a medicament for treating allergic and/or inflammatory diseases in the respiratory tract or for treating intestinal diseases and methods for treatment of the diseases in a mammal, including man.
