Abstract (en)
[origin: DE19758183A1] The invention relates to shaped bodies with heavy-duty washing or cleaning activity, high storage stability and a defined solubility profile, wherein over 80 wt. %, preferably over 90 wt. %, more preferably over 95 wt. % and even more preferably the entire amount of a constituent is contained in a defined area of the shaped bodies. The defined area is not larger than 40 %, preferably between 5 and 30 %, more preferably between 10 and 25 % and especially between 15 and 20 % of the surface of the shaped body.
