Abstract (en)
[origin: EP1046348A1] A process of producing a seasoned product wherein the product is seasoned and packaged at one of a plurality of separate, individual packaging lines, the process comprising the steps of: a) transporting product to be seasoned to one of a plurality of packaging lines; b) conveying the product through a feed head to a tumbler, wherein the feed head and tumbler cooperate to provide a plurality of portions of product that are maintained substantially separate within the tumbler; c) applying seasoning to said plurality of portions of product within the tumbler such that the amount of seasoning applied in said tumbler is based on the amount of product passing through said tumbler in a given time; and d) conveying the seasoned portions of product to a package-forming apparatus which produces packages of seasoned product.
