Abstract (en)

[origin: EP1044885A1] The packaging comprises of a box that has a double closure flap that includes an inner closure flap (13a) that is offset from the front wall (2) of the box such that a cavity (20) is formed. An adhesive strip (22) is located on the inner flap such that the o flap (17) can be secured. A second adhesive strip (24) is located on a tab (18) on the outer closure flap that fits within the cavity. The adhesive strip enables the outer closure flap to be secured against the inner surface of the front wall. A pull-out cutout (31) is provided to aid opening.
