Abstract (en)
[origin: EP1046602A2] The method for pre-preparing a splice comprises applying a pressure roller (3) to a bale (1) and cutting it across so that t cut ends (6) of the web hang down on either side of the pressure roller. A splice of double-sided adhesive tape(12) is applied t the end of the web (11) on the bale. The cover strip is removed from the top of the tape and the hanging end of the cut web is rolled around the bale and stuck to it
