Abstract (en)
[origin: FR2773455A1] . The triangular vacuum cleaner tool has removable feet (1) Each foot (1) has a lower surface (2), fitted with a central part (6) made from a PTFE (RTM) material having a low coefficient of friction, which ensures easy sliding of the tool over the surface to be cleaned. Reach foot (1) has an upper surface (10) fitted with a central part (12) designed to fix the foot (1) into the lower face of the tools base plate. The lower edges (4) of each foot are curved and the part (12) is surrounded bay an annular joint (14) designed to absorbs shocks and vibrations.
