Abstract (en)
[origin: DE19853879A1] The light has a number of adjacent chambers, each with a light source and each formed by a light unit (3) with a pot-shaped housing (6) accommodating the light source whose opening is covered by a glass panel (7). A locking device (13) has an arrangement (14,15,20) for attaching the light units to a common carrier (2).
