Abstract (en)
A pumping unit (1) for use as a draining machine, comprising a housing (5) with a space for installing one or more pumps (6) therein and a suction space (7) communicating with the space for the pumps, which suction space (7) is at least partly bounded by walls or wall parts with openings therein, which may or may not give direct access to the surroundings of the housing, which housing further comprises means for coupling one or more discharge pipes (11) with the pump space and/or the pump or pumps (6) to be installed therein, while the pumping unit is further of mobile construction. <IMAGE>
