Abstract (en)

[origin: FR2772681A1] The kit consists of three parts. The transmission section consists of pulleys (1, 6, 9, 15) and belts. The primary pulley (1) is mounted on the output shaft of the gear box. The final pulley drives through the second part of the kit, which is the universal joint (21), which transmits the drive to the third part, the articulated arm (19), which transmits the drive by pinions (18, 20) and a chain (14) to the secondary arm (17) and secondary chain (13) to the axle (12) of the front wheel.
