Abstract (en)

[origin: DE19802692A1] The filling valve has a casing (1) with input connection (24), front mouthpiece and outlet device (14). The closing body is driven inside the casing for engagement, and has a valve cone (32) in front and a thickened middle part (36). There is a sealing device on the rear side. The thickened middle part has a crown of flow channels (37, 38) coming out openly at front and rear in the cavity (46, 47) formed by the casing.
