Abstract (en)
[origin: DE19801719A1] The arrangement includes a cupboard door, and a handle at which a locking mechanism is mounted. The handle is held at a casing mounted at the outside of the door. The handle is secured in its locking position by device of a locking device. The casing (10) comprises a main casing part (10.1) for holding the handle (20), and an attachable casing part (10.2) which takes in a lock (10.3) of the locking mechanism.
