Abstract (en)

[origin: EP1050245A2] The corner cupboard has at least one shelving-carousel rotarily mounted on an upright column (1) from which protrude support arms (3) on which is movably mounted, by means of door fittings (9), a double leafed angled door (5) each mounted by means of a link-arrangement (4). A connecting link (7) on the radial guide (8) is linked to the link arrangement. The guide is connected to damper (D) and to a radially profiled control (6). The linkage arrangement consists either of a four-bar linkage or of a barrel linkage with inter-engaging cylinders.
