Abstract (en)
[origin: EP1050326A1] Fixing comprises first part (1) integral with boot being fixed on second part (2) integral with board. In front, second part comprises tipping jaw (5) supported on vertical support spans (4) and against front support span (3) of first part, and in rear (20) pivoting about vertical axis using second yoke (18) and tipping about horizontal axis. Arms of stirrup are hook shaped (33), and supported on pair of boot side tenons (6). Jaw and yoke are supported on runners between which are mounted compression springs.
