Abstract (en)
[origin: EP1052454A1] The light fitting has a roof (20) and a transparent bowl (30), with a transverse plate (10) between them to support the lamp components (15,45,25). The roof and bowl have profiles along their edges that allow them to be assembled with a joint (5) in between. The plate is clamped between the roof and bowl. The plate has folded edges (2) that fit against the inclined part of th roof.
