Abstract (en)
The mascara brush consists of two sections of wire (3) twisted together, holding bristles (4). At least some of the bristles (4b) are formed as loops (5), while the remainder (4a) extend radially outwards in the conventional manner. The loops are twisted into each other, e.g. forming a figure 8. Sections with looped bristles alternate with sections with straight bristles.

Abstract (de)
Bei einem Mascara-Bürstchen umfassend eine Mehrzahl von zwischen zwei verdrehten Drahtabschnitten gehaltenen Borsten ist zur Erzielung einer optimalen Transferwirkung vorgesehen, daß die Borsten wenigstens teilweise als Schlaufen ausgebildet sind. <IMAGE>
