Abstract (en)
[origin: EP1054120A2] Self-assembling niche is regular prismatic box (1), with window, and four sides (3) delimiting space where impervious recept (4), containing ashes, is inserted. Receptacle is secured to lid (5). Cylindrical pins (6) are placed at rear of prismatic box, are used to secure box to support (7). When support is placed on pins (18) of fixing base (16), safety panel (19) is attached to base using screws and nuts (19') as to avoid support to be removed away from pins.
