Abstract (en)

[origin: EP1054471A2] A connector element (11) connects to an electric wire. A plug pin (13) has a connector section and plug section (25). The connector section makes a lasting connection with the connector element. The plug section serves as a detachable plug connection a contact socket. The connector element has a claw section (17) with claws (19) for clawing into the connector section.
