Abstract (en)  
[origin: WO9940832A1] Suspension system for suspending one or more dispensers (3) for dispensing measured quantities of liquid skin care products, comprising: suspension means; and at least one dispenser (3) with a dispenser housing (4), a liquid reservoir, a metering device and a control button (6). The suspension means comprise a suspension bar (1) and fixing means for fixing the suspension bar (1) to a wall or to an object connected to a wall, which suspension bar (1) extends horizontally when the suspension system is in a position mounted on a wall. The dispenser housing (4) comprises a through suspension hole (8), intended for sliding along the suspension bar (1), in such a way that a rotatable suspension of the dispenser (3) on the suspension bar (1) is obtained.
