Abstract (en)

[origin: EP1055629A2] A yarn feeder stand supports several driven yarn feeder units (F) on transverse arms (T) carried on a hollow central column. The current supply unit (P) is mounted within the column (A), with cable connectors (2,4) on the column or on an access cover. T column (A) also carries connections for other services, e.g. data transmission, compressed air.
