Abstract (en)
[origin: WO9942183A1] The present invention relates to a sport apparatus intended for training, wherein said apparatus comprises a base plate (1) preferably in the shape of a disc as well as rocking skids (4) provided on one side of the base plate. A standing plate (100) is mounted so as to be capable of rotation relative to the base plate (1) so that a rotation movement can be superimposed to the rocking movement thanks to said standing plate (100).
