Abstract (en)
[origin: CH689589A5] The inventive packing for a medicament ensuring safety of the contents and safe application of the medicament can be used particularly for depositing medicaments, placebos included, which are to be administered in a controlled manner during trials. In a preferred embodiment, space is provided on the inner side of the extruded packing (1.1) and the cover and inscription card (1.2) to record the description of the trials and the contents of the packing, administration time and the like.
