Abstract (en)

[origin: FR2775562A1] The invention concerns a flexible antislip element for wigs, characterised in that it is made of a drawable woven fabric (3) impregnated with an adhesive substance forming a thin drawable film (4) on at least the surface to be urged in contact with the user's skull skin, said drawable film having a non-sticky and non-gummy antislip surface at temperatures lower than its softening point, for example, room temperature, after said fabric has been impregnated and dried.
