Abstract (en)

[origin: DE19807250A1] The lubricant for the production of polyvinyl chloride (PVC) moldings contains hardened fish oil (I) and calcium soap (II). Independent claims are also included for: (a) the production of PVC moldings by adding a mixture of (I) and (II) as preferably external lubricant before plasticization; and (b) the use of mixtures containing (I) and (II) as lubricant for the production of PVC moldings.
