Abstract (en)
[origin: EP1059706A1] Connecting arrangement (10) comprises cable (11) with incorporated branch box (20). Branch box has two connectors : type 1 connector (22), i.e. male connector, connected to adjacent connecting arrangement, and type 2 connector (21), i.e. female connector, connected to type 1 connector (31) of electronic module (30). Continuity is ensured by connection between type 2 connector (12) of arrangement and type 1 connector (22') of adjacent arrangement (10'). Type 1 and type 2 connectors are complementary so that they can be attached to each other.
