Abstract (en)
The elements of the formwork are composed of two parallel insulating panels (1,2) connected by foldable fasteners (3). The rows of formwork elements are assembled along horizontal joints between rows by assembly rulers (4) which are inserted in longitudinal grooves (11,21,14,24) on each edge of the panels (12,22,3,23). An Independent claim is also included for the formwork used for the casting of a concrete wall.
