Abstract (en)  
[origin: EP1061203A2] The mast element (1) can be connected to more mast elements to make a mast (14) for a scaffolding (17) comprising several masts. The mast elements can be plug and together and rotated through at least 20 degrees and up to 360 degrees to connect them. The total length of the mast can be held constant by rotating the mast elements that have been connected. An Independent claim is included for a scaffolding including at least one mast constructed from the mast elements.
