Abstract (en)

A day of a file (F) is created (100) containing representative data of a boat, a harbor and product of fishing. Connection (101) and recognition (102) of the boat is performed for capturing of its representative data for validation of representative data of its fish product. A choice (106) of discharging of the fish product in the harbor is provided with indication (107) of date and hour of arrival at the selected harbor. An Independent claim is included for a device for performing fish product handling.
