Abstract (en)
[origin: EP1063057A2] At least two grinding wheels (3,4) forming a set have separately adjustable dressing rolls (11) mounted on a common support (19). The support swivels on an axle (21) and alternately positions the dressing rolls in a trimming position. The swivel axle is parallel with the axle of the grinding spindle (2). The support with its axle parallel with the grinding spindle axle is positioned above the vertically movable grinding spindle support (6).
