Abstract (en)

[origin: WO9946985A1] To provide an improved fungicide which acts directly on fungi and kills them, while also providing a newly cleaned surface by bleaching the action surface, and which can exhibit a reliable fungicidal effect and cleaning effect through safe and easy use, without waste. The fungicide is prepared so as to contain an oxidation-type bleaching agent as an effective component and a gelling agent for solidification of the bleaching agent.
