Abstract (en)
[origin: EP1255083A1] The oven has a metal muffle which is closed at the front by a door. The walls of the muffle have heating elements for heating the cooking space to over 180 degrees C. The walls of the muffle are covered at least on the inside by a protective layer. The protective layer is less than 30 micrometer thick, and made of sol-gel resin.
