Abstract (en)

[origin: WO9949433A1] The present invention relates to a control circuit (2) which is intended for controlling an alarm tone generator (24) and comprises the following units: a signal generator (6, 11) for emitting a first signal; a converter (8, 10) for converting the first signal into a second signal for the alarm tone generator ; a battery (4) for the power supply of the control circuit; and a voltage raising circuit (30, 32) for increasing the voltage supply of the generator.
