Abstract (en)
[origin: US6520787B1] The invention relates to a multi-pole multiple plug for connecting (small) electric appliances to a selection of different mains connection systems. The plug has internationally standardized pin arrangements (2) an the four sides of its housing (1) and an the base of the housing (1) is fitted with a recess for adjustably housing a contact tube (4-7) situated at the free end of a connecting cable (3) so that the strands of the connecting cable (4-7) can be connected inside the housing (1) With the pin arrangement (2) required at any particular time.
