Abstract (en)

[origin: EP1065577A2] The device has a magnetic and/or electromechanical locking device and at least one local controller (3) for the locking device and preferably, at least one central control and/or monitoring device for controlling and/or monitoring the local controller(s). The central control and/or monitoring device and/or the local controller have a master panel (51) and optionally one or more slave panels (52).
