Abstract (en)

[origin: EP1065691A1] Auxiliary module (10) has casing (12) comprising first switch (14) with mobile contact (20), second switch (16) with reversed mobile contact (22), mechanism (18) with lever (46) and rotative plate (52) for actuating contacts of switches, and selector (32). Signaling lever (58) is placed on plate. Mobile contact (22) is activated by intermediate lever (62) that follows movement of plate or signaling lever according to option of selector.
