Abstract (en)

[origin: DE19812620A1] The invention relates to a winder for a thin metal strip (1) comprising a winder mandrel (2), a feeding element (3) for tangentially feeding the metal strip (1) to the winder mandrel (2), and at least six pressure rollers (7) with pressure roller axles (8) for guiding the metal strip (1) around the winder mandrel (2). The pressure rollers (7) are arranged around the winder mandrel (2), are lodged in the tightening elements (4), and can be tightened against the winder mandrel (2) by means of tightening drives (6).
