Abstract (en)

[origin: EP1067269A1] The door (1) comprises a first sheet metal (3) flat box-shaped part (5) with a first base (7) and narrow-side wall strips (14) A second sheet metal part (4) in the form of a flat lid (9) and second base (16). A first covering strip (17) is attached to the base and is bent towards the first base. An adjoining second covering strip (18) is bent to the appropriate wall strip. Two strap hinge parts are positioned at the top and bottom of a lateral narrow side (12b). Frame-like edge-reinforcements (21) formed by extension strips (22) go round the door. Thermally insulating material is between the two sheet metal parts.
