Abstract (en)

[origin: WO9950489A1] Spindle for a spinning machine or twisting frame with anti-balloon container, advantageously for twisting frames for elastic yarns and in coating and covering machines, the spindle being assembled on a spindle-bearing block (10) and associated with rotation shaft means, a cop (13) to wind the yarn (14) being keyed onto the spindle, the spindle being mounted on a support (15) laterally movable with respect to the block (10), a tubular container (18) being solidly attached to the movable support (15), arranged coaxial and outside the spindle (11), with the function of limiting the balloon, the container (18) being laterally movable in a single piece with the support (15) and with the spindle (11).
