Abstract (en)

Front load washing machine comprising a cabinet (54) and a washing tub (51) that is suspended inside said cabinet by means of suspension means (52, 53; 40) and provided with a front load opening (57). A drum (2) to contain the laundry to be washed that is open frontally is contained in said washing tub (51). The suspension means (52, 53; 40) are slidingly paired to guides (10, 18; 31, 36) that are longitudinally fixed to the bottom plane surface (11) and to the top plane surface (28) of said cabinet (54) in order to allow an inclination of said washing tub (51) by a given angle as regards a vertical plane parallel to said front wall (61) of the cabinet (54) which is at least partially displaceable in a central part (60; 47) comprising a central opening to introduce the laundry to be washed in the drum (2) in order to allow the central part (60; 47) and the opening to follow the inclination of the washing tub (51). <IMAGE>
