Abstract (en)

[origin: EP1069274A2] The door panel consists of an insulating core (4) faced on both sides with aluminum sheet (2,3). Glazed openings (6,7) may be made in the panel which are framed with decorative profiles (10,11). End pieces are arranged between facing end pieces of the decorative profile in corners of the opening. Both the decorative profile and the end pieces are preferably made of aluminum.
