Abstract (en)
[origin: FR2772238A1] The invention concerns the production of a protective underwear with reduced surface so as not to be visible externally, but sufficiently covering parts of the body back and armpits) for absorbing perspiration. For this purpose, the protective underwear comprises, formed from at least one piece, a back part (2) extended by two sleeves (3) and a front part (4). The cut of the back, sleeve and front parts is such that said parts are completely covered by the garment worn on the upper part of the bust, while retaining sufficient covering power for absorbing perspiration.
