Abstract (en)

[origin: WO9930588A1] The present invention relates to a fingernail ring having artificial fingernail function which comprises: an artificial fingernail part in the front; a finger decorative part having a decorative shape, which is formed by elongating the artificial fingernail part and turns round the finger; and a cyclic ring attached under the artificial fingernail part, which is intended to encircle the finger. The fingernail ring of the present invention can be easily used like a ring by wearing or drawing when necessary, and can be popularized as an artificial fingernail with meeting the women's desire and providing a decorative effect on the fingernail.
